Stallion performance test 2011

Height Cannon bone

167 22

Conformation Type Head, neck and body Legs Walk Trot

35.0 8.0 7.0 8.0 6.0 6.0

Opinion conformation

Masculine, overbuilt. Expressive head, arched neck, withers, slightly short steep shoulder, lower back, sloping, well-muscled croup. Hooves with short toes around. Correct movements. Pure short walk in the front weight. Unbalanced, active trot.

Gaits Walk Trot Canter

6.83 7.0 6.0 8.0

Opinion Gaits

Relaxed, clean, quite variable walk in the front weight. Relaxed traveling in the front weight with lack elasticitet and buoyancy. Rhythmic, energetic and adjustable gallop.

Jumping; technique and ability	Jumping; temperament and potential for development	Test rider jumping	Test rider 1	Test rider 2
9.5	9.5	8.75	8.5	9.0

Opinion jumping

Very positive horse with large capacity and high technology. Very good rideability. An athletic individual.

Opinion test rider jumping

H L: Feels like a very strong horse. bit anxious crowd, yet very controlled and well balanced. Jumps very well, feels like a real quality horse. J FP: Beautiful horse with you and listen all the time. with very strong pressure. Large capacity and careful.

Pedigree score jumping Suitability score jumping

0.5 1.0

Pedigree

maternal side comes out Holsteinerstofamilj 487 that gave the majority of approved stallions.
